C++ 17

C#/Java

Swift/Objective-C

Unreal Engine 4

Cocos2d-x

Unity 5

Visual Studio

XCode

Source control (Git, P4)

Projects & Experience

PAPERBOAT APPS/ MOBILE GAME PROGRAMMER

DEC, 2018 - PRESENT, MUMBAI

KTown

- Created a data-driven engine, from scratch, to populate and handle interactions with Items and Characters in a doll-house game.
- Currently architecting a JSON level populator for the engine.

In App Purchase Manager

- Redesigning the existing purchase manager for iOS to be modular and use Swift, with content management in C++ to support cross platform.

Unannounced Project

- Created a pseudo-3D game experience, in a 2D environment for a runner game.
- Exposed control over the C++ code, to the designer, via a custom, header only, JSON scripting system.

UNIVERSAL CREATIVE/ INTERN PROGRAMMER

OCT, 2017 - DEC, 2017, ORLANDO

- Designed and developed the client-facing modules for an internal mobile application prototype, including the UI elements.
- Implemented a system, in UE4, C++, to load and apply character specific interactions for a VR prototype.

FLORIDA INTERACTIVE ENTERTAINMENT ACADEMY, UNIVERSITY OF CENTRAL FLORIDA / STUDENT

AUG, 2016 - AUG, 2017, ORLANDO

The Draft, Capstone Project

- Developed end-to-end gameplay for an Archer character in VR.
- Prototyped and implemented position tracking on hand-held weapons in VR, enabling realistic blocking for the Enemy AI.

Physics Model of a Boat in Water, Personal Project

- Implemented a physics model that enables a boat to utilize a collection of forces so that it behaves buoyant, accurately, on a body of water.
- Utilised Nvidia PhysX to obtain the physical structure of the boat, to enable breaking down of the mesh and applying physics to the boat.

Ghost Chamber

- Built a middleware, using AutoCAD API in C# to enable reading and interpreting gestures from the Kinect.

CAPGEMINI INDIA / SOFTWARE ENGINEER

FEB, 2014 - JUL, 2015, MUMBAI

- Worked in development of modules in any aspect of the IBM ESB platform.
- Acted as point of contact for issues related to production support.

Education

UNIVERSITY OF CENTRAL FLORIDA/ MS IN INTERACTIVE MEDIA - Major In Programming

AUG, 2016 - DEC, 2017

UNIVERSITY OF MUMBAI/ BE IN COMPUTER ENGINEERING

AUG, 2009 - JUL, 2013
